1) The amendment/preliminary amendment filed 6/03/2009 is acknowledged.

2) Claim 29 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

The objection of claim 29 is previously Office action is repeated herein.

3) The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4) Claims 12-15 and 22-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over ALFERNES (7,078,607).

The rejection of claims 12-15 and 22-31 in last Office action are repeated herein.

5) Applicant's arguments filed 6/03/2009 have been fully considered but they are not persuasive.

First, applicant did not response for the objection of claim 29 under 37 CFR 1.75(c).

Second, applicant states that the reference of ALFERNESS does not teach or suggest to mix a complete songs. As indicated in last several Office actions, the song in ALFERNESS is mixed with different sound elements ( guitars, vocals, drum, bass, etc., ), after mixing the song are complete and ready for playback.

Third, applicant states that the mixed song control track are not stored in medium. As indicated in last several Office actions, it is well known in recording art that the song after edited can be recorded on any selectable recording medium, such as, disc, disk, tape, card, etc.,. Further, in column 6, lines 13-45 ALFERNESS suggests to store control track in any suitable recording medium ( CD or DVD ). For that reasons, anyone of ordinary skill in the art would have been motivated to store mixed song and control track in storage medium as claimed.
